Summary

Frontend Developer with 2+ years of experience in building fast, responsive web apps using React and Next.js. Strong in API integration, state management, and UI/UX. Comfortable with backend using Node.js and Express.

Experience

Software Engineer, Cropsly Solutions Private Limited July 2023 – Present

- Led end-to-end development of the company's core product **runhotel.io** in **Next.js**, building responsive, high-performance frontend from scratch.
- Created dynamic **on-demand booking system** and integrated **pricing engine** with real-time updates using **Socket.IO**.
- Built reusable UI components, complex forms (Formik, Yup), and implemented **JWT-based auth** with role-based access and route protection.
- Mentored junior developers and reviewed PRs to maintain code quality across the team.
- Delivered multiple client-facing admin panels in **React.js**, using **Redux**, **Tailwind**, and **Ant Design** for dashboards with smooth UX.

Skills

Languages: JavaScript, TypeScript, C, C++ , Java

Technologies: HTML, CSS, Tailwind css, ReactJs, Next.js, Redux, Redux-saga, Socket.io, Node.js, ExpressJS, GraphQL, Git/Github, Jenkins (CI/CD pipelines)

UI Libraries : Ant Design, Material UI, Chakra UI, Shadcn UI

Projects

Runhotel - Cropsly • July 2023 - Present [Live](#)

- Built the complete frontend for **RunHotel.io** in **Next.js**, developing all core features like dynamic pricing, booking flows, and hotel onboarding from scratch.
- Implemented key modules including **cancellation policies**, **restaurant menus**, **multi-location support**, and **tax/invoice management**.
- Created an advanced **super-admin dashboard** enabling user control, SEO optimization, and custom domain support for hotels.
- Built a modular **booking system library** with dynamic pricing, user reviews, and promotional offers — integrated across hotel templates. [Live Demo](#)
- Developed a responsive and SEO-friendly **user website** for RunHotel, enabling direct bookings, content updates, and smooth sync with backend data.

Frontend Projects at Cropsly • July 2023 – Present

- Built the complete admin panel for [Replay](#) with support for 1000+ playlists, **OTP login**, and **RBAC**, integrating **S3 presigned URLs** for secure media access.
- Developed real-time betting UI for [Chips&Crypt](#) using **WebSocket** + **GraphQL subscriptions** for seamless odds updates and live event handling.
- Created admin panels for [Drive One](#), [Park One](#), and [Traffic Alarm](#) with features like split-pane layout, RBAC, OTP-based business verification, and news publishing.

Education

Chandigarh University 2020 – 2023

- Bachelor of Computer Applications CGPA: 8.32
